Stephanie

After a review of the plans and questions from bidders we have an addendum we want to offer, to provide some clarity to the bid documents, as follows:

1. Answers to bidder's questions.
2. Lighting product sheet – for Palm lighting
3. Revised Unit price bid sheet to reflect Irrigation breakdown of items
4. Revised Irrigation plan sheets to clarify locations of proposed equipment and work efforts

These revisions shall be included in the bid and shall be acknowledged by all parties bidding. They will be delivered by email to all bidding parties.

**Respectfully;**
